Printing date 16.10.2013 Revision: 16.10.2013 Version number 11

# Safety data sheet according to 1907/2006/EC, Article 31

GB

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

#### Trade name: BODY 961 ETCH PRIMER 1K PVB SYSTEM

Article number: 320

## 1.2 Relevant identified uses of the substance or mixture and uses advised against

Sector of Use SU3 Industrial uses: Uses of substances as such or in preparations at industrial sites

Product category PC9a Coatings and paints, thinners, paint removers

Process category

PROC8a Transfer of substance or preparation (charging/discharging) from/to vessels/large containers at non-dedicated facilities

Environmental release category ERC2 Formulation of preparations

Article category AC1 Vehicles

Application of the substance / the preparation

Priming Surface protection

1K acid cured, adhesion promoter, anticorrosion primer

## 1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier: H.B. BODY S.A B' ENTRANCE BLOCK 50 DA9 & MB6 Str THESSALONIKI INDUSTRIAL AREA 57.022, SINDOS THESSALONIKI,GREECE Ph: +30 2310 790 000 Fax: +30 2310 790 033 www.hbbody.com email: hbbody@hbbody.com

Further information obtainable from: H.B. BODY S.A B' ENTRANCE BLOCK 50 DA9 & MB6 Str THESSALONIKI INDUSTRIAL AREA 57.022, SINDOS THESSALONIKI,GREECE Ph: +30 2310 790 000 Fax: +30 2310 790 033 www.hbbody.com email: hbbody@hbbody.com

1.4 Emergency telephone number: +30 2310 790 000

## **SECTION 2: Hazards identification**

# 2.1 Classification of the substance or mixture Classification according to Directive 67/548/EEC or Directive 1999/45/EC Xn; Harmful R20/21: Harmful by inhalation and in contact with skin. Xi; Irritant R37/38-41: Irritating to respiratory system and skin. Risk of serious damage to eyes. Xi; Sensitising R43: May cause sensitisation by skin contact. R10: Flammable. (Contd. on page 2)

(Contd. of page 1)

**Information concerning particular hazards for human and environment:** The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.

**Classification system:** 

The classification is according to the latest editions of the EU-lists addapting Directive 67/548/EEC on the classification, packaging and labelling of dangerous substances and extended by company and literature data.

#### 2.2 Label elements

#### Labelling according to EU guidelines:

The product has been classified and marked in accordance with EU Directives / Ordinance on Hazardous Materials.

#### Code letter and hazard designation of product:

Hazard-determining components of labelling: Epoxy Resin

xylene

## Risk phrases:

10 Flammable.

20/21 Harmful by inhalation and in contact with skin.

- 37/38 Irritating to respiratory system and skin.
- 41 Risk of serious damage to eyes.
- 43 May cause sensitisation by skin contact.

#### Safety phrases:

- 7/9 Keep container tightly closed and in a well-ventilated place.
- 23 Do not breathe gas/fumes/vapour/spray (appropriate wording to be specified by the manufacturer).
- 25 Avoid contact with eyes.
- 26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- 29 Do not empty into drains.

36/37/39 Wear suitable protective clothing, gloves and eye/face protection.

- 43 In case of fire, use sand, carbon dioxide or powdered extinguishing agent. Never use water.
- 51 Use only in well-ventilated areas.
- 60 This material and its container must be disposed of as hazardous waste.

#### 2.3 Other hazards

#### **Results of PBT and vPvB assessment**

This product contains no substance that is considered to be persistent, bioaccumulating or non toxic(PBT). This mixture contains no substance that is considered to be very persistent or very bioaccumulating (vPvB).

**PBT:** Not applicable.

vPvB: Not applicable.

#### **SECTION 3: Composition/information on ingredients**

#### **3.2 Chemical characterization: Mixtures**

#### **Description:** Mixture of hazardous substances

**Dangerous components:** 

(Contd. on page 3)

GR

Additional information: For the wording of the listed risk phrases refer to section 16.

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

**General information:** 

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

After inhalation:

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

After skin contact: Immediately wash with water and soap and rinse thoroughly.

After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing: If symptoms persist consult doctor.

4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

## **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

Suitable extinguishing agents:

General aqueous film forming foam, Carbon dioxide (CO2), dry chemical extinguishing powder or water spray. Do not use water.

For safety reasons unsuitable extinguishing agents: Water with full jet

5.2 Special hazards arising from the substance or mixture No further relevant information available.

#### Hazarous combustion products

Fire will produce a dense black smoke containing hazardous decomposition by products. Exposure to those may be a hazard to health.

(Contd. on page 4)

GB

#### **5.3 Advice for firefighters**

Firefighters should always protective equipment and breathing apparatus when handling fire coming from these products Speial protective equipment and fire fighting procedures:

Mouth respiratory protective device.

Firefighters should wear full protective flameproof clothing and self contained breathing apparatus for the firefighter if necessary. In the event of any fire try cool down the tanks with water spray. If possible do not allow the water used by firefighters to enter the drains or come in any contact with the water supply lines for the public. Always seek as appropriate. Additional information Collect contaminated fire fighting water separately. It must not enter the sewage system.

SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

#### **6.2 Environmental precautions:**

Do not allow product to reach sewage system or any water course.

Inform respective authorities in case of seepage into water course or sewage system.

Do not allow to enter sewers/ surface or ground water.

#### 6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Dispose contaminated material as waste according to item 13.

Ensure adequate ventilation.

Do not flush with water or aqueous cleansing agents

#### 6.4 Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

#### **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace.

Prevent formation of aerosols.

Information about fire - and explosion protection:

Keep ignition sources away - Do not smoke.

Protect against electrostatic charges.

7.2 Conditions for safe storage, including any incompatibilities

#### Storage:

Requirements to be met by storerooms and receptacles: No special requirements.

Information about storage in one common storage facility:

As genoral storage guide: store separately from oxidizing agents and strongly alkaline and strongly acidic materials. Do not store together with explosives, gases, oxidizing solids, products which form flammable gases in contact with water, oxidizing products, infectious products and radioactive products.

Further information about storage conditions: Keep container tightly sealed.

#### 7.3 Specific end use(s) No further relevant information available.

#### **SECTION 8: Exposure controls/personal protection**

Additional information about design of technical facilities: No further data; see item 7.

#### **8.1 Control parameters**

Ingredients with limit values that require monitoring at the workplace:

## 71-36-3 butan-1-ol

WEL Short-term value: 154 mg/m<sup>3</sup>, 50 ppm

Sk

## **Trade name: BODY 961 ETCH PRIMER 1K PVB SYSTEM**

(Contd. of page 4)

#### Ingredients with biological limit values:

#### 1330-20-7 xylene

BMGV 650 mmol/mol creatinine **Medium: urine** 

Sampling time: post shift Parameter: methyl hippuric acid

Additional information: The lists valid during the making were used as basis.

## 8.2 Exposure controls

#### **Personal protective equipment:**

General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing

Wash hands before breaks and at the end of work.

Avoid contact with the skin.

Avoid contact with the eyes and skin.

**Respiratory protection:** 

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use selfcontained respiratory protective device.

**Protection of hands:** 

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

For the permanent contact in work areas without heightened risk of injury (e.g. Laboratory) gloves made of the following material are suitable:

The breakthough time of gloves is unknown for this product itself. The glove material that can be used is recommended on the baseis of the different substances in the preparation.

For the permanent contact gloves made of the following materials are suitable: Fluorocarbon rubber (Viton)

(Contd. on page 6) GB Page 6/15

Printing date 16.10.2013 Revision: 16.10.2013 Version number 11

## Trade name: BODY 961 ETCH PRIMER 1K PVB SYSTEM

(Contd. of page 5) For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable: **Rubber** gloves Eye protection:

Tightly sealed goggles

**Body protection:** Protective work clothing

SECTION 9: Physical and chemical proper	rties
9.1 Information on basic physical and chem	nical properties
General Information	
Appearance:	
Form:	Fluid
Colour:	According to product specification
Odour: Odour threshold:	Characteristic
	Not determined.
pH-value:	Not determined.
Change in condition	
Melting point/Melting range:	Undetermined.
<b>Boiling point/Boiling range:</b>	116 °C
Flash point:	21 - 55 °C
Flammability (solid, gaseous):	Not applicable.
Autoignition temperature:	270 °C
<b>Decomposition temperature:</b>	Not determined.
Self-igniting:	Product is not selfigniting.
Danger of explosion:	Risk of explosion by shock, friction, fire or other sources of ignition.
Explosion limits:	
Lower:	1.1 Vol %
Upper:	9.4 Vol %
Vapour pressure at 20 °C:	12 hPa
Density at 20 °C:	1.178 g/cm <sup>3</sup>
<b>Relative density</b>	Not determined.
Vapour density	Not determined.
Evaporation rate	Not determined.
Solubility in / Miscibility with	
water:	Not miscible or difficult to mix.
Partition coefficient (n-octanol/water	): Not determined.
Viscosity:	
Dynamic:	Not determined.
Kinematic:	Not determined.
Solvent content:	
<b>Organic solvents:</b>	48.8 %
	(Contd. on page

## Trade name: BODY 961 ETCH PRIMER 1K PVB SYSTEM

Solids content (volume):

(Contd. of page 6)

VOC (EC)

575.3 g/l 23.9 %

9.2 Other information

No further relevant information available.

#### **SECTION 10: Stability and reactivity**

**10.1 Reactivity** 

**10.2** Chemical stability

Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

10.3 Possibility of hazardous reactions No dangerous reactions known.

10.4 Conditions to avoid No further relevant information available.

10.5 Incompatible materials: No further relevant information available.

10.6 Hazardous decomposition products: No dangerous decomposition products known.

#### **SECTION 11: Toxicological information**

11.1 Information on toxicological effects

Acute toxicity:

#### LD/LC50 values relevant for classification:

	LD/LC50 values relevant for classification.		
71-36-3 bu	71-36-3 butan-1-ol		
Oral	LD50	790 mg/kg (rat)	
Dermal	LD50	3400 mg/kg (rabbit)	
Inhalative	LC50/4 h	8000 mg/l (rat)	
13463-67-7	13463-67-7 titanium dioxide		
Oral	LD50	>20000 mg/kg (rat)	
Dermal	LD50	>10000 mg/kg (rabbit)	
Inhalative	LC50/4 h	>6.82 mg/l (rat)	
<b>1330-20-7</b>	xylene		
Oral	LD50	4300 mg/kg (rat)	
Dermal	LD50	2000 mg/kg (rabbit)	
107-98-2 1	107-98-2 1-methoxy-2-propanol		
Oral	LD50	5660 mg/kg (rat)	
Dermal	LD50	13000 mg/kg (rabbit)	
Inhalative	LC50/4 h	6 mg/l (rat)	
471-34-1 ca	471-34-1 calcium carbonate		
Oral	LD50	6450 mg/kg (rat)

Oral	LD50	2460 mg/kg (rat)	
Dermal	LD50	3400 mg/kg (rabbit)	
	Prime	ary irritant effect:	

Primary irritant effect:

on the skin: Irritant to skin and mucous membranes.

on the eye: Strong irritant with the danger of severe eye injury.

Sensitization:

Sensitization possible through skin contact.

Sensitizing effect through inhalation is possible by prolonged exposure.

Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:

Harmful

(Contd. on page 8)

#### Irritant

(Contd. of page 7)

#### **SECTION 12: Ecological information**

#### 12.1 Toxicity

## Aquatic toxicity:

This product is not toxic for the aquatic life. Nevertheless do not dispose the product or any cleaning solvents used along with this product into the sea

#### 12.2 Persistence and degradability

This prouduct contains polyesteric molecules and organic solvents and is not known to be bioaccumulative. It can be considered as biodegradable in small quantities. In case of disposal, it should be treated as a hazardous material and should be disposed accordingly. Do not just throw it away

#### **12.3 Bioaccumulative potential**

This product is not known to have bioaccumulative potentials. It should not be disposed in areas where living organisms could consume. Dispose it as a hazardous material according to local laws and regislations

#### 12.4 Mobility in soil

This product is not considered to present any mobility in soil. Do not dispose it in the soil and treat it as a hazardous product according to local laws and legislations.

#### Additional ecological information:

**General notes:** 

Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water

Do not allow product to reach ground water, water course or sewage system.

Danger to drinking water if even small quantities leak into the ground.

#### 12.5 Results of PBT and vPvB assessment

PBT: This product contains no substance that is considered to be persistent, bioaccumulating or non toxic(PBT).

vPvB: This mixture contains no substance that is considered to be very persistent or very bioaccumulating (vPvB).

12.6 Other adverse effects No further relevant information available.

#### **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

Recommendation Must not be disposed together with household garbage. Do not allow product to reach sewage system.

#### **Uncleaned packaging:**

Recommendation: Disposal must be made according to official regulations.

## **SECTION 15: Regulatory information**

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Labelling according to EU guidelines: The product has been classified and marked in accordance with EU Directives / Ordinance on Hazardous Materials.

Code letter and hazard designation of product:

Xn Harmful

Hazard-determining components of labelling: Epoxy Resin xylene

#### **Risk phrases:**

- 10 Flammable.
- 20/21 Harmful by inhalation and in contact with skin.
- 37/38 Irritating to respiratory system and skin.
- 41 Risk of serious damage to eyes.43 May cause sensitisation by skin contact.

#### Safety phrases:

- 7/9 Keep container tightly closed and in a well-ventilated place.
- 23 Do not breathe gas/fumes/vapour/spray (appropriate wording to be specified by the manufacturer).
- 25 Avoid contact with eyes.
- 26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- 29 Do not empty into drains.

(Contd. on page 10)

#### Trade name: BODY 961 ETCH PRIMER 1K PVB SYSTEM

(Contd. of page 9)

- 36/37/39 Wear suitable protective clothing, gloves and eye/face protection.
- 43 In case of fire, use sand, carbon dioxide or powdered extinguishing agent. Never use water.
- 51 Use only in well-ventilated areas.
- 60 This material and its container must be disposed of as hazardous waste.

15.2 Chemical safety assessment: A Chemical Safety Assessment has been carried out.

## **SECTION 16: Other information**

This information is based on our current knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

#### **Relevant phrases**

- H226 Flammable liquid and vapour.
- H302 Harmful if swallowed.
- H312 Harmful in contact with skin.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
- H332 Harmful if inhaled.
- H335 May cause respiratory irritation.
- H336 May cause drowsiness or dizziness.
- R10 Flammable.
- R20/21 Harmful by inhalation and in contact with skin.

R22 Harmful if swallowed.

- R36/38 Irritating to eyes and skin.
- R37/38 Irritating to respiratory system and skin.
- **R38** Irritating to skin.
- R41 Risk of serious damage to eyes.
- **R43** May cause sensitisation by skin contact.
- R67 Vapours may cause drowsiness and dizziness.

#### Annex: Exposure scenario 1

#### Short title of the exposure scenario

General Statement: The exposure senarios on the MSDS tend to provide specific information on how a hazardous substance, found in a preparation or as a raw material can be managed and controlled. It considers specific conditions of use in order to ensure that a use can be safe to humans and the environment. Identified risk management measures are to be implemented unless the downstream user is able to ensure a safe handling of the material in a different way.

Sector of Use SU3 Industrial uses: Uses of substances as such or in preparations at industrial sites

Product category PC9a Coatings and paints, thinners, paint removers

**Process category** 

PROC8a Transfer of substance or preparation (charging/discharging) from/to vessels/large containers at non-dedicated facilities

Article category AC1 Vehicles

Environmental release category ERC2 Formulation of preparations

**Description of the activities / processes covered in the Exposure Scenario** 

See section 1 of the annex to the Safety Data Sheet.

Conditions of use According to directions for use.

Duration and frequency Frequency of use:

## **Physical parameters**

The data on the physical - chemical properties in the Exposure Scenario is based on the properties of the preparation. Physical state Fluid

Concentration of the substance in the mixture The substance is main component.

Other operational conditions

Other operational conditions affecting environmental exposure No special measures required.

Other operational conditions affecting worker exposure

Avoid contact with eyes.

Avoid contact with the skin.

Avoid long-term or repeated skin contact.

Do not breathe gas/vapour/aerosol.

Other operational conditions affecting consumer exposure No special measures required.

Other operational conditions affecting consumer exposure during the use of the product Not applicable.

## **Risk management measures**

#### Worker protection

Organisational protective measures

Ensure good ventilation. This can be achieved by using a local exhaustion or general exhaust system. If these measures are insufficient to keep the solvent vapour concentration below the workplace limit, wear an adequate respiratory protective device.

Technical protective measures Ensure that suitable extractors are available on processing machines

**Personal protective measures** 

Do not inhale gases / fumes / aerosols.

Avoid contact with the skin.

Avoid contact with the eyes.

Tightly sealed goggles

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use selfcontained respiratory protective device.

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

#### Measures for consumer protection

#### Ensure adequate labelling.

Observe consumer information and advice on safe use.

#### **Environmental protection measures**

Water

Do not allow to reach sewage system. Dispose of this product and its container at hazardous or special waste collection point.

Soil The product is only processed over the concrete collecting basin.

#### Trade name: BODY 961 ETCH PRIMER 1K PVB SYSTEM

(Contd. of page 11)

Disposal measures Ensure that waste is collected and contained.

Disposal procedures Must not be disposed together with household garbage. Do not allow product to reach sewage system. Waste type Partially emptied and uncleaned packaging

Exposure estimation

**Consumer** This product is to be used by professional technitians only.

Guidance for downstream users

Whether the downstream user acts within the scope of the Exposure Scenario can be verified based on the information in sections 1 to 8.

(Contd. on page 13)

	ifficient to keep the solvent vapour concentration below the workplace limit, wear an adequate respirator
protect	ve device.
Techn	ical protective measures Ensure that suitable extractors are available on processing machines
Person	al protective measures
	inhale gases / fumes / aerosols.
	ontact with the skin.
	ontact with the eyes.
	sealed goggles of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use sel
	ed respiratory protective device.
	ive gloves
	ve material has to be impermeable and resistant to the product/ the substance/ the preparation.
	missing tests no recommendation to the glove material can be given for the product/ the preparation/ the
	ll mixture.
	n of the glove material on consideration of the penetration times, rates of diffusion and the degradation
Ensure adequa	r consumer protection
	and out of the reach of children.
	mer information and advice on safe use.
Environmen	tal protection measures
Water	•
Do not	allow to reach sewage system. Dispose of this product and its container at hazardous or special waste collectio
point.	
Soil TI	e product is only processed over the concrete collecting basin.
	Ensure that waste is collected and contained.
Disposal pro	cedures Must not be disposed together with household garbage. Do not allow product to reach sewage system
	Partially emptied and uncleaned packaging
Exposure estimation	
·	his product is to be used by professional technitians only.

#### Annex: Exposure scenario 3

Short title of the exposure scenario General Statement: The exposure senarios on the MSDS tend to provide specific information on how a hazardous substance, found in a preparation or as a raw material can be managed and controlled. It considers specific conditions of use in order to ensure that a use can be safe to humans and the environment. Identified risk management measures are to be implemented unless the downstream user is able to ensure a safe handling of the material in a different way. Description of the activities / processes covered in the Exposure Scenario See section 1 of the annex to the Safety Data Sheet. Conditions of use According to directions for use. **Duration and frequency Frequency of use: Physical parameters** The data on the physical - chemical properties in the Exposure Scenario is based on the properties of the preparation. Physical state Fluid Concentration of the substance in the mixture Raw material. Other operational conditions Other operational conditions affecting environmental exposure No special measures required. Other operational conditions affecting worker exposure Avoid contact with the skin. Do not breathe gas/vapour/aerosol. Other operational conditions affecting consumer exposure Keep out of the reach of children. Other operational conditions affecting consumer exposure during the use of the product Not applicable. **Risk management measures** Worker protection Organisational protective measures Ensure good ventilation. This can be achieved by using a local exhaustion or general exhaust system. If these measures are insufficient to keep the solvent vapour concentration below the workplace limit, wear an adequate respiratory protective device. Technical protective measures Ensure that suitable extractors are available on processing machines Personal protective measures Do not inhale gases / fumes / aerosols. Avoid contact with the skin. In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use selfcontained respiratory protective device. **Protective gloves** The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation **Measures for consumer protection** Ensure adequate labelling. Keep locked up and out of the reach of children. Observe consumer information and advice on safe use. **Environmental protection measures** Water Do not allow to reach sewage system. Dispose of this product and its container at hazardous or special waste collection point. Soil The product is only processed over the concrete collecting basin. Disposal measures Ensure that waste is collected and contained. Disposal procedures Must not be disposed together with household garbage. Do not allow product to reach sewage system. Waste type Partially emptied and uncleaned packaging **Exposure estimation** Consumer This product is to be used by professional technitians only. Guidance for downstream users Whether the downstream user acts within the scope of the Exposure Scenario can be verified based on the information in sections 1 to

8.
