Follow the application instructions mentioned in this TDS

A. On a "wet on wet" application 720 hardener must be used (never H 725).

B. Never apply "wet on wet" over polyester fillers due to the fact that can be seen after clear coating.

2K paint systems tend to react with water, hence all the equipment used must be moisture free. Isocyanates may cause skin sensitization. More specifically, care should be taken when handling the material. Anyone with a history of histaminic conditions, or respiratory problems should consult the doctor first.
